

THE OHIO ELECTRONIC RECORDS COMMITTEE PRESENTS...

The 2018 Ohio ERC Spring Digitization Workshop

To Scan or Not to Scan: That is the Question

Register today for the 2018 Ohio Electronic Records Committee's spring workshop. In this free half day workshop we will investigate the pros and cons of scanning projects, as well as demonstrate a new feasibility tool developed by Ohio ERC for evaluating records for digitization. Following the presentation, attendees will engage in a series of hands-on training activities where they will be able to utilize the feasibility tool and uncover the hidden costs and variables of digitization projects through sample scenarios. Tours of the scanning operation at the Delaware County Records Center and Archives also will be provided. Attendees will come away with a better understanding of what and why to scan, as well as the hidden variables to consider.

Date: March 2, 2018

Time: 1:00 — 3:30pm

Location: Frank B. Willis Government Building
2079 US Rt. 23 North
Delaware, OH 43015

Cost: ***Free!***
Please share with interested colleagues, groups, or mailing lists

Register: ***Registration is required for this event @:*** <https://goo.gl/forms/DGMu58yUwMMNAXnn1>

Seating: Seating is limited to 50 participants per session.
